Dear Mr. Schneider :

Thank you for your letter of 22nd November.

I send you enclosed a copy of my 1967 report. Eberle's unpublished work is contained in his thesis. I only have two copies of it. I send you one with the request that you return it after having studied it.

I have examined rather carefully the work of Felderhof and some other papers which are not mentioned in our 1982 review article. It would be best if we could discuss all the questions you rise personally. Could you visit us in Lausanne ? We could contribute with Sw.Fr. 350.- to your travel expenses and pay your hotel for two nights in Lausanne.

If you cannot arrange the trip, I will try to answer by mail. Note that you can also get in touch with us by electronic mail.

With best regards,

Prof. Paul Erdős
